### HE-SHI-KO BUNCHING ONION

This splendid Bunching Onion is now considered the best and extensively used wherever green or bunching onions are used. Actual experience proves it vastly superior to White Welch or Lisbon. It trenches remarkably well, producing a long, mild flavored stem, exceptionally hardy, not only to the coldest weather, but to an extremely dry spell.

For immediate shipment ..... \$1.00 f.o.b. New York  
For delivery after the 1933 crop... .50 f.o.b. Yokohama

### BERMUDA ONION SEED *(1933 Crop)*

Advices from Tenerife point to a small crop. As the prices depend upon the value of foreign currency we are unable to print prices, but will be glad to quote upon request. Please wire us your requirements.

## FOR IMMEDIATE SHIPMENT

All our offerings are of high germination, the Japanese varieties grown by T. Sakata & Co., others by the most reliable European growers.
